The Erzgebirge / Krušnohorsk Mining Region is comprised of 22 component parts. The selection is based on the outstanding universal value and unique attributes of the region in an international context. Seventeen component parts are located on the Saxon side of the border and a further five on the Czech side. Taken together, the component parts form the World Heritage Site. To give a comprehensive picture of the region’s historical mining heritage, additional locations have been designated as “associated objects” of the World Heritage Site. To give a comprehensive picture of the region’s historical mining heritage, additional locations have been designated as “associated objects” of the World Heritage Site.

**Saxon World Heritage Site components:**
- Jöhstadt Mining Cultural Landscape
- Koepseck Mining Cultural Landscape
- Marienberg Mining Landscape
- Lauenstein Administrative Centre
- Altenberg-Zinnwald (tin forest) Mining Landscape
- Dippoldiswalde Medieval Silver Mines
- Buchholz Mining Landscape
- Lauta Mining Landscape
- Historic Centre of Marienberg
- Ehrenfriedersdorf Mining Landscape
- Kronach Mining Landscape
- Lichtenberg Mining Landscape
- Schneeberg Mining Landscape
- Hoher Forst Mining Landscape
- Freiberg Mining Landscape
- Schindlers Werk Blue Dye Factory
- Schneeberg Timber-Rafting Ditch
- Wellner Cutlery and Silverware Factory
- St. Andreas Mine / Weiße Erde Pit
- Racing Club Chemnitz
- Welterbe Montanregion Erzgebirge e. V.
- Hartmannsdorf

**Czech World Heritage Site components:**
- Horní Blatná Mining Cultural Landscape
- Abertamy – Boží Dar – Horní Blatná Mining Cultural Landscape
- Urahns Díl Mining Landscape
- Vítkovice Mining Landscape
- Vítkovice – Žacléř Mining Cultural Landscape
- Rother Berg Mining Landscape
- Ehrenfriedersdorf Mining Landscape
- Lugeck Mining Landscape
- Žacléř Mining Landscape
- Žacléř Water Mill
- Krupka Mining Cultural Landscape
- Marienberk Mining Landscape
- Nederzwönitz Paper Mill
- Pobershau Grüner Graben Ditch
- Große Hart – Düben Mining Landscape
- Pöhlberg Mining Landscape
- Große Schirma-Halsbrück Mining Landscape
- Königsvitz Mining Landscape
- Horní Blatná Mining Cultural Landscape
- Frankenberg Mining Landscape
- Marchegg Mining Landscape
- Znojmo Mining Landscape
- Rudolfov Mining Landscape
- Horní Blatná Mining Cultural Landscape
- Oderský Diký brotherhood
- Welterbe Montanregion Erzgebirge e. V.
- Hartmannsdorf

**Component parts of the Erzgebirge / Krušnohorsk Mining Region**
Many important measurements for mining heritage tourism in the Erzgebirge. They are evidence of the formative influence of mining on the development of landscapes and towns, as well as on art, culture, science, and technology.

The UNESCO World Heritage Site Erzgebirge / Krušnohoří mining region is an exceptional testimony to the outstanding role of mining in the development of technological, scientific, and cultural landscapes associated with mining (around 400 in Saxony alone).

The characteristic features of the selected cultural landscapes bear witness to mining history, demonstrating its global importance as one of the key ore mining areas, and illustrating the different mining eras to the region’s mining history, demonstrating its global importance as one of the key ore mining areas, and illustrating the different mining eras.

The components include items that bear witness to mining history both above and below ground, historical mining towns, and characteristic landscape features such as sinkholes and heap rows. Taken together, the 22 component parts demonstrate the outstanding universal value of the World Heritage Site.

As a service available from www.montanregion-erzgebirge.de www.montanregion.cz

The Erzgebirge/Krušnohoří Mining Region as a unique example of a coherent mining landscape that is an exceptional testimony to the outstanding role bears exceptional testimony to technological, scientific, administrative, educational, managerial and social aspects of mining on both sides of the border.

The Erzgebirge/Krušnohoří Mining Region was inscribed on the World Heritage List of the UNESCO World Heritage Committee at its 43rd session in 2019. The World Heritage nomination was suggested and promoted by activated citizens and institutions on both sides of the border. In 2007, they joined forces to form the Förderverein Montanregion Erzgebirge e. V. (Association for the Promotion of the Erzgebirge Mining Region) and successfully applied for the cultural heritage of the mining region to be listed on the World Heritage List. The designation of the Erzgebirge/Krušnohoří Mining Region as a World Heritage Site also includes agrarian structures associated with the settlement and agricultural systems such as artificial ditches, ponds, and canals. The World Heritage Site is comprised of 22 component parts including the mining landscapes and the related mining environments.
